PROJECT SUN STREAK

WARNING NOTICE: INTELLIGENCE SOURCES AND METHODS INVOLVED

PROJECT NUMBER: 0016A (Tng) SESSION NUMBER: 1
DATE OF SESSION: 12 FEB 90 DATE OF REPORT: 12 FEB 90
START: 1453 END: 1531
METHODOLOGY: CRV VIEWER IDENTIFIER: 052

1. (S/NF/SK) MISSION: To describe the target site (Space Shuttle launching at Cape Kennedy) in Stage 2 terminology.
2. (S/NF/SK) VIEWER TASKING: Encrypted coordinates only.
3. (S/NF/SK) COMMENTS: No Physical Inclemencies. 052, like all students, likes the "fun part" of Stage 2, but not the "drudgery" of Stage I. 052 had given an adequate number of Stage 2 descriptors for me to call "site" fairly early, so I gave 052 the option of "just enjoying getting more detail". 052 progressed into some very excellent viewing, getting accurate information in two of the best allegoricals I have seen. Post session discussion centered around allegoricals, their occurrence and use in remote viewing, and the theory behind them (which is not taught in the regular theory instruction).
4. (S/NF/SK) EVALUATION: 3 *Perhaps*
5. (S/NF/SK) SEARCH EVALUATION: N/A *Should be*

MONITOR: 018
